

Radiology Quality Improvement via Perfect Serve

The following instructions detail the submission of imaging to the appropriate lead tech and/or manager for the purpose to address image quality concerns.

Under the Groups tab, select Radiology QA

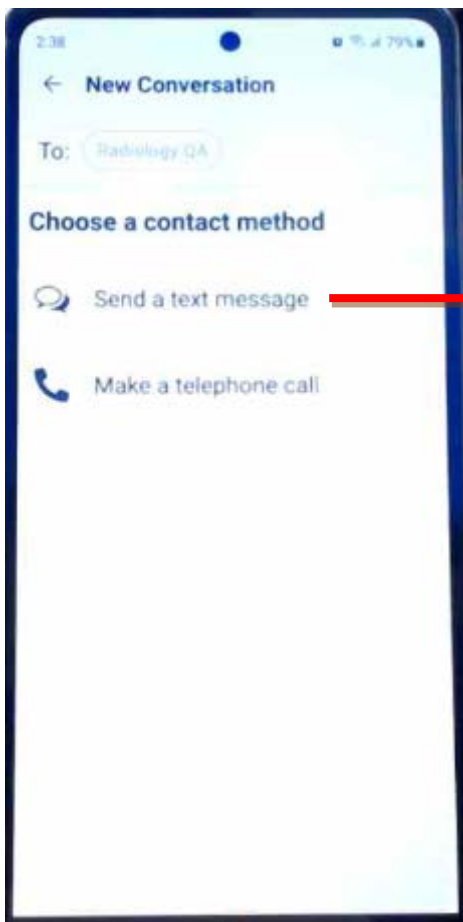

Next, select the modality as this will ensure the delivery to the correct tech or manager.

The next screen will confirm the person who will receive the message.

Press Continue.

Select the option to
“Send a text message”

If you have a paper clip to the left of the message box, you can click that to attach a photo. Just select “Camera” from the menu that opens, take a picture inclusive of the Accession number and then click the paper clip at the bottom of the photo to attach it to the message.

Add a comment about your finding and click Send.

If you are not attaching a photo, be sure to include the Accession Number in your message.
