

ARRIVAL

You'll have a key and likely a fob on a chain from Joanne

Park in the circle in front of condo "The Watermark" 1551 Ala Wai Blvd,
Honolulu, HI 96815

If you have a bunch of luggage/family, can unload into the lobby

Take your key/fob and head up into the elevator. You'll need the fob to push #11

Go to #1105. Key turns hard to the left to open door

Inside – you'll find a few sets of keys/fobs on the kitchen counter for your use while at the condo. Some of the keychains have a smaller key. That's for the mailbox (in the mail room by the bank of elevators). Check for mail every now and again (usually just junk). The fobs act as garage door openers! (Except for one of them – it's labeled as the fraud that it is)

Anyway, grab a garage door opener and head back to your car

Pull forward and around to the garage – open door with your opener and go to spot #426, 514, 547 or 670. There are two ins/outs to the garage. You'll eventually learn which you'll want depending on where you're heading.

Take the parking garage elevator back down to 1 and take the walkway back to the lobby. Grab the family and head on up.

Early on, get the forms you'll need to "sign in" with the front desk folks. They'll need all that info to contact you when packages arrive, etc. You'll also need a tag for any parked cars in the garage

NOTE: If you're ever locked out, there is a "lock box" in The Watermark back office. I believe it's labeled "ARI" and the Passcode is: #2703. Please return keys to the lock box after use. The maids use this to enter.

THE CONDO

WiFi: Spectrumsetup-96 password: keyscout214

3 bedrooms and 3 ½ baths: Big room/bathroom (spacious/TV)
 Guest room (best room-darkening blinds)
 Office (not spacious, but is used 'til 1 or 2 am)

There are at least two inflatable beds around. Plus there's a Pack n Play and a full crib if you're in the need.

The A/C can be tricky. The thermostat in the entry foyer controls the common areas. The thermostat in the 'guest' room controls all the bedrooms. It can be hard to find the proper balance. To get the office and guest room cool enough, the big bedroom can be downright COLD! The A/C fans can be very loud. See what works best for you.

You'll find remote controls to open/close the common area blinds.

The old laptop by the TV is not good for much. But it is perfect for printing out anything (i.e. these sheets). Just E-mail yourself anything you might need to print out and logon via that computer.

Cleaning supplies are provide by ARI. E-mail Joanne (haselyj@summahealth.org) when you need TP, hand soaps, dishwasher liquid, pods for the laundry, Bounce, paper towels, etc. Give her a heads up before totally out so she can resupply.

Garbage – there's a chute out in the hallway between our two doors – HINT: don't lock yourself out! Open the door and turn the deadbolt or take a key with you.

There is a big recycling bin down on lobby level around the corner. To find it, you may have to ask the desk for your first drop off.

Condo common areas:

Pool – it's lovely. Shaded in the morning, sun afternoon. Lit up and open well into the evening. Great for the kids ('caues we're usually working)

Grills are available poolside. Really nice, easy to use. Nice table chairs alongside. Reserve a day or two in advance (they're free).

Weight room/exercise room is not much, but it works.

Our storage locker is above the 426?? parking space. It's loaded with boards and mats and snorkel equipment and lord knows what else. Feel free to rearrange/declutter as you see fit. We've all taken our turn doing that.

Another note – you will come home at times with sand in orifices you didn't know you had. Try not to dump a ton of sand in the condo or the condo bathrooms/showers. I have often found it best to de-sand yourself on the balcony if possible.

There are brooms and vacuums in the condo for when you invariably overdo it!

WORK

Sad that the real reason we're out here is to work 3rd shift, but alas

The shift in Hawaii is to cover 12 MN – 7 am back home

In the summer when CLE is on EDT, that shift is 6 pm – 1 am HST

In the winter when CLE is on EST, the shift is 7 pm – 2 am HST

Hawaii does not change their clocks. Too lazy? Too smart to bother?

Anyway, if you're in Hawaii during time changes back home, pay attention!

Generally, it's a good idea to logon early to get the lay of the land.

If we're pretty caught up, feel free to contact the 5 pm - MN guy in Akron and maybe let them go early.

Note: TRAFFIC can be brutal here in Honolulu at any time of day.

Plan accordingly! You don't want to be that guy that has to call the 5 pm - MN guy in a panic and beg them to stay longer (not cool)

Remember: You're covering the AGFA PACS and WRH

WRH

Sometimes the Concerus (the to-do list of patients) doesn't come up on the WRH PACS. I generally hit the "Search" button and pull up a case (Frank Smith for example). Open a case. Close the case. Usually the Concerus then pops up.

On Tuesday nights, WRH is off-line for routine maintenance or whatever. You can see cases, you just can't dictate them out. They usually FAX you a sheet to fill out a wet read and FAX back. They usually go back live at around 4:30 am ET. Try to read out the wet reads you did earlier.

AGFA

Your first responsibility is the ER

Second is generally IP

Third – knock out other stuff (OP, MRI, etc). Sorry, that's the job.

Come about 5 am ET, the ICU films start popping up. Try to get through at least a few of those.

OH SHIT – IT’S NOT WORKING!!

Start with the IT helpers

CITY help desk: (330) 375-3634

WRH help desk: (330) 255-3030

You may want to call the CT techs to let them know there are issues and you’re working on it (because they’ll be fielding calls asking for the reads)

When if that all fails:

The first back-up is the 5 pm – MN rad from the night before. If need be, it’s his/her job to come in to ACH to take over. Perfect Serve, page, call at home – whatever. Get a hold of them.

The second back-up is the Angio call rad. If everything is down and we need a doc at more than one place (i.e. at WRH and ACH) the Angio guy is it.

There’s no real third back-up if we need people at all 3 locations (ACH, WRH, Barberton).

It’s essentially been decided that when this is needed, we just phone people who are on the Board to help out.

SHOPPING

You're going to need to stock up.

My personal favorite grocery store is the Safeway at 888 Kapahulu Ave. You'll find everything is expensive here. Sign up for a Safeway card. My savings are always about \$20 or so when I make my start-up grocery run.

For the things you forget, you can't beat the convenience of the nearby Pantry (about a block away). It's in the lower level of the blue-roofed building you see from the condo elevators.

Others probably stock up other ways (Walmart, Sam's Club, Costco, Foodland, Whole Foods).

NOTE: When you shop (especially for just a few things), take a tote bag or ten with you. Almost all stores charge for any bags when checking out and less litter is good. There are more of these bags in the condo than you will be able to use.

The Ala Moana Mall is the other direction from the condo. You see it from the condo balcony.

It has just about everything. Target, Nordstrom's, restaurants, the biggest food court you've ever seen.

RESTAURANTS

Happy Hours restaurants (before work):

Mara - Mediterranean. Renaissance hotel

Signature prime steak house – Top floor of Ala Moana hotel across the canal. Line starts at 4pm

Chef Chai – 4-5pm early bird – 1009 Kapiolani

Merrimans - Kakaako

Wolfgang's at the bar

Sky - 2270 Kalakaua 19th floor 5-7PM happy hour

Orchid

Roy's

Side street inn

MW

Azure - Royal Hawaiian

53 by the Sea

Pai Honolulu

Livestock Tavern – Chinatown

Mud hen waters

Aloha kitchen - pancakes

Rainbow Café - near Diamond Head

Istanbul – across from Whole foods

Jade Dynasty - Chinatown

Cino

Planted

LEAVING

All good things must come to an end.

Note:

Often the “leaver” has a redeye home (a late afternoon flight)

The “arriver” gets in in the early afternoon. You usually don’t even cross paths.

Do as much laundry as you can (sheets and towels)

Make as many beds as you can

Rid the fridge/pantry/countertop of all perishables

We have maid service on the Saturday of the switch

The crew (a delightful family, really) is here from roughly 12 noon – 3 pm

They will push laundry through as need be, and make beds, I believe

Leave all the fobs and keys (except for the set you got from Joanne) in the condo.

DON’T LEAVE A GARAGE DOOR OPENER IN YOUR RENTAL CAR
